

Spiralling snails

Art projects:

You will need:

- Some plain or coloured paper, or cartridge paper or thin card
- A sheet of old newspaper
- Pencils or pens to decorate your snails
- A ruler, a pen and a piece of sticky tape

1 . Coiled paper snails

1. Cut a piece of coloured paper or thin card into strips and decorate one side with patterns
2. Roll the strip around a pencil or curl it on the edge of a ruler to make a spiral. The pattern should be on the outside.
3. Draw your snail's face on the end of the card

Spiralling snails

2. The Daily Snail – newspaper snail

1. Take a sheet of old newspaper and roll it up **as tightly as you can** to make a long, thin tube
2. Wrap your long tube tightly round to start coiling the shell.

Wrap your newspaper or paper strips as tightly as you can to get a strong spiral

Spiralling snails

3. When it is done, use a little piece of sticky tape to stop the coiled shell unravelling. Leave a little bit free to make the snail's 'head'.
4. Curl the head end round to make the face and mouth
